- Tour Operators will be charged for the number of days booked, irrespective of the number of days the customer actually rents. If the client returns the car early, the Tour Operator will still be charged at the number of days reserved. Exceptions, such as medical emergencies, death in family, etc., will be handled subsequently by Customer Relations.
- Rental periods cannot exceed 62 days. If a rental is more than 62 days, additional reservations are necessary to accommodate the total number of days. The number of days reserved for each reservation may be split up as necessary, as long as no one reservation exceeds 62 days. The rental agreement must be renewed at a participating location and therefore client must return to location to do so. For example, a 70-day rental may be booked on a reservation of 62 days and one of 8 days or may be booked on a reservation of 40 days and 30 days. Additional reservations/voucher are required for each rental period, which must be presented at the counter for renewal of the rental record prior to the 63rd day (or whatever day rental has been split to).
